What's happening in 2nd Grade

BRAIN TEASER

How many triangles are in the picture? The first person to bring the answer and an explanation to school will get a prize! Hint: Don't forget that two triangles together can make a new triangle.

Math

How long does it take you to do your homework? It may seem like forever, but it probably takes about 30 minutes. This week we will talk about things you can do in one second, one minute, and one hour.

Science

Living organisms depend on their environment and each other to get all of the things they need. We all know that plants need soil, water, and air to survive, but did you know that they need other living organisms such as bees and bugs?

Language Arts

Let's put some words to bed and use better words instead. This week in our writing, we are working on using more descriptive words. For example, instead of saying "That was fun," let's see what word could make our sentence even better. "That was a blast!"

Reading

Please continue to encourage your child to read every night. After your child has reached their AR goal with an average of 85% or better they will be allowed to check out "fun" books (books that are not AR).

HOMework

Monday - 1. Anthony Reynoso: Born to Rope
 2. Math Homework

Tuesday - 1. Anthony Reynoso: Born to Rope
 2. Reading passage—remember to write LRRTRC down the side of your paper to remind you of the steps to follow.

Wednesday - 1. Anthony Reynoso: Born to Rope
 2. Language Arts

Thursday - 1. Anthony Reynoso: Born to Rope
 2. Spelling—Rainbow words: Write your spelling words with a crayon. Trace over each word with another color.

Friday - Comprehension test over Anthony Reynoso: Born to Rope
