“Excellence in Middle Level Education”

Dear Parents,

Moore is hosting its’ annual **Math, Science, and Technology Night on Tuesday, November 13th at 6:00 p.m.** Students and parents will attend “hands on” interactive sessions focused on math, science, and technology.

Attendees in science sessions might find the planet Venus through a telescope. Our **Astronomers** may even learn about the Andromeda Galaxy in an autumn session entitled “Autumn Astronomy” or explore the physics supporting air flight. Our young **Scientists** might learn how to race Balloon Racers in one of the science sessions. Science participants may also find out what an Astro-not is. **Technology Engineers** will challenge their friends and family to see who can build the tallest tower. If you like Bingo come learn about Geometry or learn the power of a rocket. **Mustang Mathematicians** will compete to work puzzles or play “game show” competitions on math facts or study the geometry involved in making bubbles. You will find out firsthand how to make rain. Food and candy samples will be available in some sessions that accompany scientific experiments and competitions.

Regardless of which sessions you choose to attend, the evening promises to be great fun for the entire family.

Please see below for a list of the sessions:

Title	Room #	Title	Room #
Geometric Bubbles (Math)	308	Create Your Own 3d Hologram (Math)	310
Order Up – Dream of Perfect Food (Math)	211	MIRA’S Shadow Reflection (Math)	104
The Kahoot Challenge (Math)	306	Fraction / Decimal Bingo (Math)	112
What’s Really in Your Baby’s Diaper (Science)	209	Coding Your Maze Ozobots (Science)	105
Night Lights –Chemiluminescence (Science)	309	K-Nex Balloon Racers (Science)	109
Staff Wars...May the force be with you (Tech)	Choir	Stump the Class – Flip-Grid (Technology)	206
Money Planes (Math)	106	Sling Shot Rocket (Math)	210
Castle Destruction Catapults (Science)	305	Autumn Astronomy (Science)	Court Yard
Brain Teaser Patterns on Chromebooks (Math)	108	The Tower Challenge (Math)	110
The Science of Root-beer (Science)	207	Storm in a Jar (Science)	307
Geometry Bingo (Math)	312	Calculator Graphing (Math)	212
Are you an Astronaut or an Astro-not? (Science)	107	Marshmallow Manipulation (Math)	208
Skittles Colors (Technology)	331	Binary Bracelets (Technology)	332
Kahoot Challenge #2 (Math)	Library		

The objective for the evening is to get parents actively involved as our partners in producing mathematicians, scientists and users of 21st century technology. This is a great opportunity to visit our campus and see the science labs firsthand. Make plans now to come out and enjoy a fun evening with your student. **All Moore students attending with parents will receive extra credit in their math, science and technology classes for their grades.** Don’t miss this opportunity to have fun with math and science while improving your class average!

This year we are also offering a special incentive for all students attending MST Night. Our PTA will be set up in the hallways with membership forms. A single \$8.00 PTA membership purchased on this evening will give parents a \$5.00 pass to any home Moore basketball game and while supplies last a \$1.00 PTA contemporary Moore car decal. That’s a \$6.00 value making your PTA membership only \$2.00 to join. What a super deal for our parents!

We are looking forward to a great evening.

Sincerely,

Claude Lane

Moore MST Principal
